DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-18 and 20 drawn to a sensor holder for a rectangular shaped sensor.

Group II, claim(s) 19, drawn to a sensor and a sensor holder with a frustoconical portion.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: a sensor holder for a rectangular shaped sensor with the first component adapted to hold a rectangular-shaped sensor, the second component being provided with a first sealing surface..., a rectangular-shaped envelope surface...adapted to be tightly sealed to the rectangular shaped sensor when pressing together the first and second component..., and the first sealing surface of the second component being adapted to be tightly sealed to a second sealing surface... is not the same as or equivalent to a sensor and a sensor holder with a portion of the throughgoing opening of the second component being frustoconical, the frustoconical portion being widened towards a surface opposite the first sealing surface, and sealing means.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
